

SCHOOL ATTENDANCE

Returning to school is vital for children's education and for their wellbeing. Time out of school is detrimental for children's cognitive and academic development, particularly for disadvantaged children. This impact can affect both current levels of learning and children's future ability to learn, and therefore we need to ensure all pupils can return to school sooner rather than later._

Lower academic achievement also translates into long-term economic costs due to having a less well-qualified workforce. This affects the standard of living that today's pupils will have over the course of their entire life. For many households, school closures have also affected their ability to work. As the economy begins to recover, we need to remove this barrier so parents and carer's can return to work

All pupils will be expected to attend school and arrive at school on time. It is **vitaly important** that parents are punctual in the morning every day to ensure that all children enter the school at their designated time so that class bubble groups are not mixed.
